What is this resource and how do I use it?

This is a great game for young children to play in groups of four. Simply print and cut out the pieces, then explain the game to your child. Role-playing everyday activities like shopping is a good way to develop young children's life skills and is also good for verbal communication and creativity - plus it's lots of fun!

What skills does this practise?

Memory

Fine Motor Skills

Little Life Skills - Shopping

Verbal Communication

Further Activity Ideas and Suggestions

Board games are wonderful for developing a variety of skills in young children, including fine motor skills, life skills, creativity and problem-solving. You'll find lots of board games designed for children [here](#).

Shopping List Memory Game

Set-up:

Print and cut out all the elements in this resource. You will have four Shopping Trolleys and a pile of Grocery Cards. Laminate them or stick them onto card for extra durability if you would like.

Instructions:

- 1 Each player chooses a Shopping Trolley.
- 2 Place all the Grocery Cards face down on the table in front of you.
- 3 Players take turns to turn over one Grocery Card and reveal it to all the other players. If they have that item in their Shopping Trolley, they place the card on top of it. If they don't have that item, they replace the card on the table face down.
- 4 The next player then takes their turn.
- 5 Children can try to remember where others placed their discarded Grocery Cards so they can fill their own trolley faster.
- 6 The person who fills their Shopping Trolley first wins the game!
